POWERSPORTS LINEUP

FEAR NO PLACE

*Constantly in motion,
Segway Powersports live and breath speed and power.
Segway Powersports are designed to communicate that
we are ready to pounce within a heartbeat.
Let's 'FEAR NO PLACE' together!*

SMART MOVING | SNARLER | VILLAIN | FUGLEMAN

SMART MOVING

FORWARD-LOOKING INTELLIGENCE, ITERATIVE POWERSPORTS EXPERIENCE

Segway Powersports APP + 10.4" Smart Touch Screen

「 AirLock 」 Remote Unlock

When you get close to Segway Powersports, you can activate your vehicle by Bluetooth through your mobile phone AirLock. You can also use the APP (cellular data) to unlock the car remotely with your mobile phone as the key.

AIRLOCK | SET | SAFETY | TEAM | TRACK

「 SET 」 Driving Settings

Get the Speed limit Settings, EPS Settings on your phone. Customize your Powersport for a personal fit, so you can enjoy the drive!

「 SAFETY 」 Security Guarantee

Add an SOS emergency contact person. In case of serious collision/rollover, the APP will automatically send an SMS with your location to the emergency contact person.

「 TEAM 」 Wireless Team Up

Team up with friends. The offline map, wireless location and wireless communications will help you explore every time you ride.

「 TRACK 」 Real-Time Data

Vehicle data view: residual mileage, real-time torque, horse power, EPS mode, subtotal mileage, speed curve, etc.

SNARLER AT6 L

RECREATION & UTILITY ATV

Snarler audience of mainly young people, to enjoy the fun of control. The advanced engine technology gives the Snarler series engines much more dynamic power.

It is an untamed mechanical beast in the dark forest
Flaming LED Eyes, Ready to Fight
Powerful Engine, Swallow All Terrain
Segway Snarler AT6
Untamed Beast with Dynamic Power

SNARLER AT6 L UP FOR ANYWHERE

Optimal PowertrainTech Design

The 570CC engine adopts the optimal design of insulator spark plug and optimized CAM. With the addition of electronic fuel injection system, the powertrain has good adaptability in high/low temperature and high altitude environment.

Powerful Configuration, Extraordinary Performance

Snarler have the most professional Configuration, high standard chassis, professional air shock, high strength frame, facing the challenges of all kinds of complex terrain, can have excellent performance.

Convenient Life Assistant

Electric winch 2500/3000(optional) pounds, can easily help you out. Snarler's racks feature strong and a large flat area. You can quickly attach and detach accessories, for strong practicability.

- Ground Clearance 27CM
- High-Strength Chromium-Molybdenum Steel Frame
- LED Headlights
- Fuel Tank Capacity 23L

VILLAIN SX10
SPORT SIDE X SIDE

With an aggressive stance and an arched back its animalistic silhouette is unblinkingly fixated at the prey — be it the road ahead or the competition.

VILLAIN SX10

As the flagship of the Segway Powersports type, Villain owns an irresistibly powerful engine and nobleness, which illustrates its excellent designing conception as modern SxS.

Unleashed Beast Powerful Engine

With 105 horsepower the Villain's 1000cc engine is extremely competitive among 1000CC displacement level SSVs, with excellent low speed performance characteristics thanks to its 88 N·m of low end torque. Full throttle results in rapid and thrilling acceleration and will awaken your riding spirit.

Powerful Configuration Extraordinary Performance

Villain features exceptional quality and performance. The mix of our powerful and reliable engine, high strength frame, rigid chassis and professional level fully adjustable gas shocks give you the confidence to challenge even the toughest of terrain.

Exposed Engineering

We show our muscles with pride, we confidently reveal their intrinsic weaving throughout the body. We are built for all-terrain and whatever punches are thrown our way you won't see us flinch. We see beauty in our engineering and want it known that we are built to last.

VILLAIN SX10

PERFORMANCE

Extreme Performance Gas Suspension

The Front Dual-A Arm Independent Suspension travel is 400mm and the Rear Suspension Multi-link Torsional Trailing-Arm Suspension travel is 430mm. The ground clearance is 360mm. It gives you a smooth ride over the roughest terrain.

Front and Rear Diff-Lock

Villain features a Spiral Angle Front/Rear Constant Drive Shaft, while the front axle differential enables the smooth switching between 2-wheel and 4-wheel drive. The Front and Rear axle differential lock can also be switched manually while moving, greatly improving the off-road performance.

Smart EPS Burst Out Your Passion

The EPS can be switched on-the-fly to one of three settings. With standard, comfort and sport settings selectable through our APP the ride is customizable for different drivers, terrain and road conditions.

Lightweight HC Steel Frame

The high-strength Chromium-molybdenum Steel Frame has the advantages of being lightweight and features a high level of rigidity. Our strong, robust and light frame provides a strong sense of security and a precise driving feel.

FUGLEMAN UT 10

UTILITY SIDE X SIDE

From its futuristic shape to its spirited performance, the Fugleman is a perfect reflection of your impeccable taste. Fugleman is not only a powerful assistant in your life, but also solid mate when you explore the world.

FUGLEMAN UT10

Incredible Powerful Engine

With 105 horsepower the Fugleman's 1000cc engine is extremely competitive among 1000CC displacement level UTVs, with excellent low speed performance characteristics thanks to its 88 N-m of low end torque. Full throttle results in rapid and thrilling acceleration and will awaken your riding spirit.

Powerful Configuration Extraordinary Performance

Fugleman features exceptional quality and performance. The mix of our powerful and reliable engine, high strength frame, rigid chassis and professional level fully adjustable gas shocks give you the confidence to challenge even the toughest of terrain.

Rich Versatility

Fugleman's large-capacity space has been optimized, and a new inclined cargo box is used to facilitate cargo operations. The cargo box is equipped with a hydraulic auxiliary mechanism and a sturdy latch system. The bed box inner dimension is 36.2 x 51.2 x 11.4" can load of 992 lb cargo. The standard towed weight is up to 1134 kg. Fugleman is on standby at any time!

Segway Technology Co., Ltd. (hereinafter referred to as "Segway Powersports") is an innovative company in the field of Powersports design and manufacturing, included but not limited to: All-Terrain Vehicles, Utility Side by Sides, Sport Side by Sides and On-road Vehicles. Approaching the international market from a long-term perspective, Segway Powersports has numerous self-developed patented designs including hybrid powertrain systems, internal combustion engines, smart IOV system, advanced vehicle designs, etc. Segway Powersports is a high-tech enterprise integrating a superior supply chain and its own factories. The company specializes in the R&D, production, sales and after-sales service of Powersports products. Segway Powersports adheres to the motto of "FEAR NO PLACE" and aims to be the leading All-Terrain mobility solution provider.

© Segway Technology Co., LTD. (Segway). All rights reserved. Segway LOGOs are registered trademarks of Segway or its affiliates. Segway reserves the rights to change or discontinue models, design, specifications, features, price and equipment at any time without incurring any obligation in order to continually improving quality and seeking for innovation. Because ATVs and SSVs can be hazardous to operate, Segway strongly recommends all drivers take training courses, read the Owner's Manual and watch the Safety Video before driving; always keep in mind that driving and alcohol/drugs don't mix; drivers must be over 18 years old or the age defined in the law and regulation in your country, and fulfill other requirements defined in the law and regulation in your countries. For safety concern, please remember that always wear proper riding gears such as helmet, eye protection, and other protective clothing. SSV driver and passenger always keep your seat belt fastened when driving. Never carry a passenger on any ATV if not specifically designed by the manufacturer for such use. Passenger must be over 12 years old or the age defined in the law and regulation in your country and able to hold handgrips and plant feet while seated against the backrest. Always respect for the local laws and regulations applicable in your country, the environment and the rights of other people while driving. Please drive and ride only in the authorized locations and areas. All the photos were taken on private or licensed private land outside the European Union.
